

YOUR SOLUTION FOR DIGITAL PRODUCTION PLANNING

PRODUCTION PLANNING & CONTROL

SOFTWARE FOR PRODUCTION PLANNING

BENEFITS

- + **Simply replace EXCEL & paper:**
plan digitally in one week
- + **Immediately usable & maintenance-free**
for the entire machine park
- + **Improvement of capacity utilization**
by up to 25 %
- + **Reduction of planning efforts**
by up to 80 %

CLOUD PRODUCTION PLANNING & CONTROL

PRODUCTION PLANNING & CONTROL is designed for the **digital manual planning and control of production orders**, which is supported by a wide variety of assistance functions. Simple and intuitive to use.

The solution consists of the **web applications** PLANNING BOARD (PPS software), PRODUCTION FEEDBACK (PDA software) and PRODUCTION COCKPIT (KPI dashboard). In efficient interaction, they offer everything you need to meet reliable delivery dates and optimal capacity utilization.

The solution is specially developed for **small and medium-sized manufacturing companies**. From the cloud, it is immediately usable and maintenance-free

You can test **PRODUCTION PLANNING & CONTROL** free of charge:

PLANNING BOARD (PPS)

MANUAL PLANNING WITH ASSISTANCE FUNCTIONS

- + Intuitive planning tool (APS / PPS)
- + Easy replacement of EXCEL & paper
- + Takes limited resources into account (machines, employees, material)

PRODUCTION FEEDBACK (PDA)

DIRECT FEEDBACK FROM PRODUCTION

- + Networked with PLANNING BOARD
- + Short-term reaction to changes
- + Overview of all production tasks on the machine

PRODUCTION COCKPIT (DASHBOARD)

RELEVANT INFORMATION AT A GLANCE

- + Simply structured dashboard
- + Individually configurable with
- + Visualizes information from PLANNING BOARD & PRODUCTION FEEDBACK

ABOUT PPS SOFTWARE

You reach the limits with EXCEL or paper in your production planning and need an **intuitive software**? As a contract or product manufacturer you want to take **all machines, workstations and employees** into account during planning?

And you are looking for a **partner with manufacturing expertise** who will **accompany you on your way to digital production**? Then you are right with us!

DMG MORI has set itself the task of equipping medium-sized manufacturing companies with the necessary tools to stand up to the global competition in terms of manufacturing efficiency, delivery capability and price calculation by offering digitally integrated solutions.

The focus of our PRODUCTION PLANNING & CONTROL solution is therefore the **digitally optimized core process of planning and controlling production orders** throughout the entire manufacturing process.

We would be pleased to support you in the future in keeping **your production plan up to date!**
